

Capability Statement

Overview

We specialize in providing high quality acquisition and program management support. Our staff has extensive, multifaceted, executive-level technical, programmatic, acquisition and financial management expertise gained from supporting strategic initiatives and major projects. We employ a Systems Thinking approach which is a holistic, multi-disciplined understanding of how organizations, systems and/or processes operate within complex environments. In addition, we use collaborative tools, ISO 9001 compliant quality procedures, and industry best practices to optimize cost, schedule and technical performance. The confluence of these factors and our close relationship with our customers enables us to effectively react to change, implement solutions, and ultimately provide best value.

Core Competencies

- Acquisition Management
- Business Planning
- Contract Administration
- Cost Estimating
- Earned Value Management
- Economic Analysis
- Financial Management
- Program Management
- Risk Management
- Scheduling
- Strategic Planning
